Here is the PRPs' deliverable required under the AOC for identifying places to put the non-radiological waste that would be excavated during barrier construction. I have placed it on H:, West Lake Schedule Tracker, Subsurface Oxidation Event, Subsurface Barrier design documents, filename "Bridgeton Landfill Thermal Isolation Barrier Waste Relocation Areas.pdf".

I have not had a chance to review it thoroughly yet. We'll need a decision on who else needs to review (USACE, ORD, etc).

Sincerely,
